

What makes a wonderful friend?

Friends and family; the twin pillars that support us through the ups and downs of life. With one crucial difference- we're born into our family, but we choose our friends. How splendid?! We get to choose who to spend our time with, who to lean on in hard times, who to celebrate with, so how to choose? What qualities make a wonderful friend?

We think a wonderful friend is someone who will stick with you through anything. Whatever life throws at you, a good friend will always have your back. Someone who will never judge you or talk behind your back. Someone who you can trust. A wonderful friend is someone you can run up the street to, swinging your arms and not worry about who's watching or judging you.. They are someone who will be honest with you when you need it most, like when you have pen on your nose for instance.

Coming up with this list of adjectives was not difficult, all we had to do was think of words to describe each other. We have been friends since our first day at Our Lady's School. Since then we have spoken, laughed and confided in each other every day. In doing so, we have acquired a momentous amount of fond memories, which we will cherish forever.

Life isn't always easy, especially as a busy teenager but a wonderful friend makes the journey worth taking.
