WSE/MLL Report Our Lady's School 2019

Dear Parents

Please see attached a copy of the Whole School Evaluation Management, Leadership and Learning Report for Our Lady's School 2019.

Congratulations to every member of the school community who worked positively to show the high standards and excellence that exists in every aspect of school life in OLS which are recognised in the report.

We are awarded the highest levels on the Department of Education's quality continuum, from highly effective teaching and learning to affirming that school leadership and management is very good.

The Board of Management welcomes this extremely positive report acknowledging that 'school leaders foster a culture in which learning is prioritised, leading the school community to continuously strive for excellence'.

Teaching and learning is identified as highly effective or effective and 'the school self evaluation processes are also used very effectively to manage the school's response to changing needs'.

The school's emphasis on wellbeing and the positive affirmation of students' efforts were identified as key strengths in OLS.

The positive and supportive learning environment was recognised as 'Students identified themselves as learners, and displayed a deep engagement with learning and student behaviour was exemplary. Students were aware of teacher expectations, and in turn displayed high expectations for their own learning. They were confident in answering and asking questions and were willing to take risks'.

As always we look to improve and we will be implementing the recommendations advised.

Many thanks to all for their support throughout the process.

Yours sincerely

Marguerite Gorby
Principal
